Fifth graders conducted extensive research on a commonly disliked animal of their choice. They made videos to educate people about the role those animals play in the ecosystem. We are hoping that people might change their opinion about skunks, bees, and many other commonly disliked animals.

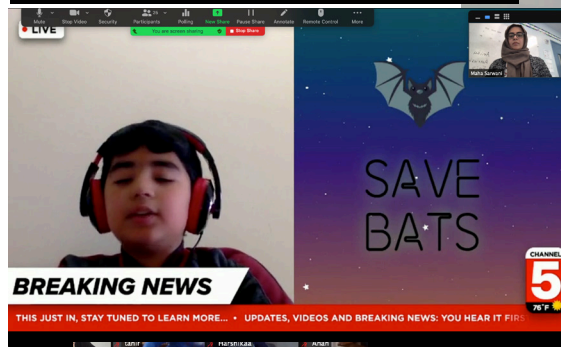

Students volunteer to teach a mini-lesson to their peers on Friday.

Student teacher presentation:

Student teachers create Kahoot games to review the lesson of the week. Their presentations now include ZOOM polls to gauge the interest of their audience. Student teachers are awarded a Homework Pass for their efforts.

Fifth grade plant:

One of our fifth graders started growing a bean plant as a class plant in September. He has been taking care of the plant for all these months. He was very proud to share how tall his plant is now. Even though these students are virtual, they are keeping the classroom culture alive!

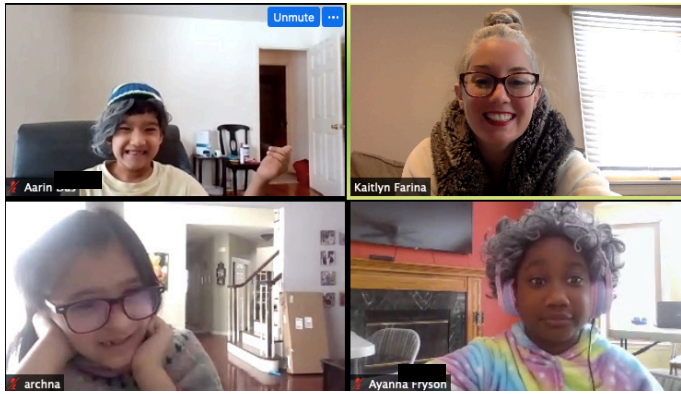

CJCP Kindergarteners are discussing diversity and celebrating that we are all different in our special ways!

CJCP -New Brunswick students participating in Black History Month Celebration Presentations via Zoom.

Here are some pictures from us ...

CMP Guest speakers; CJCP Alumni

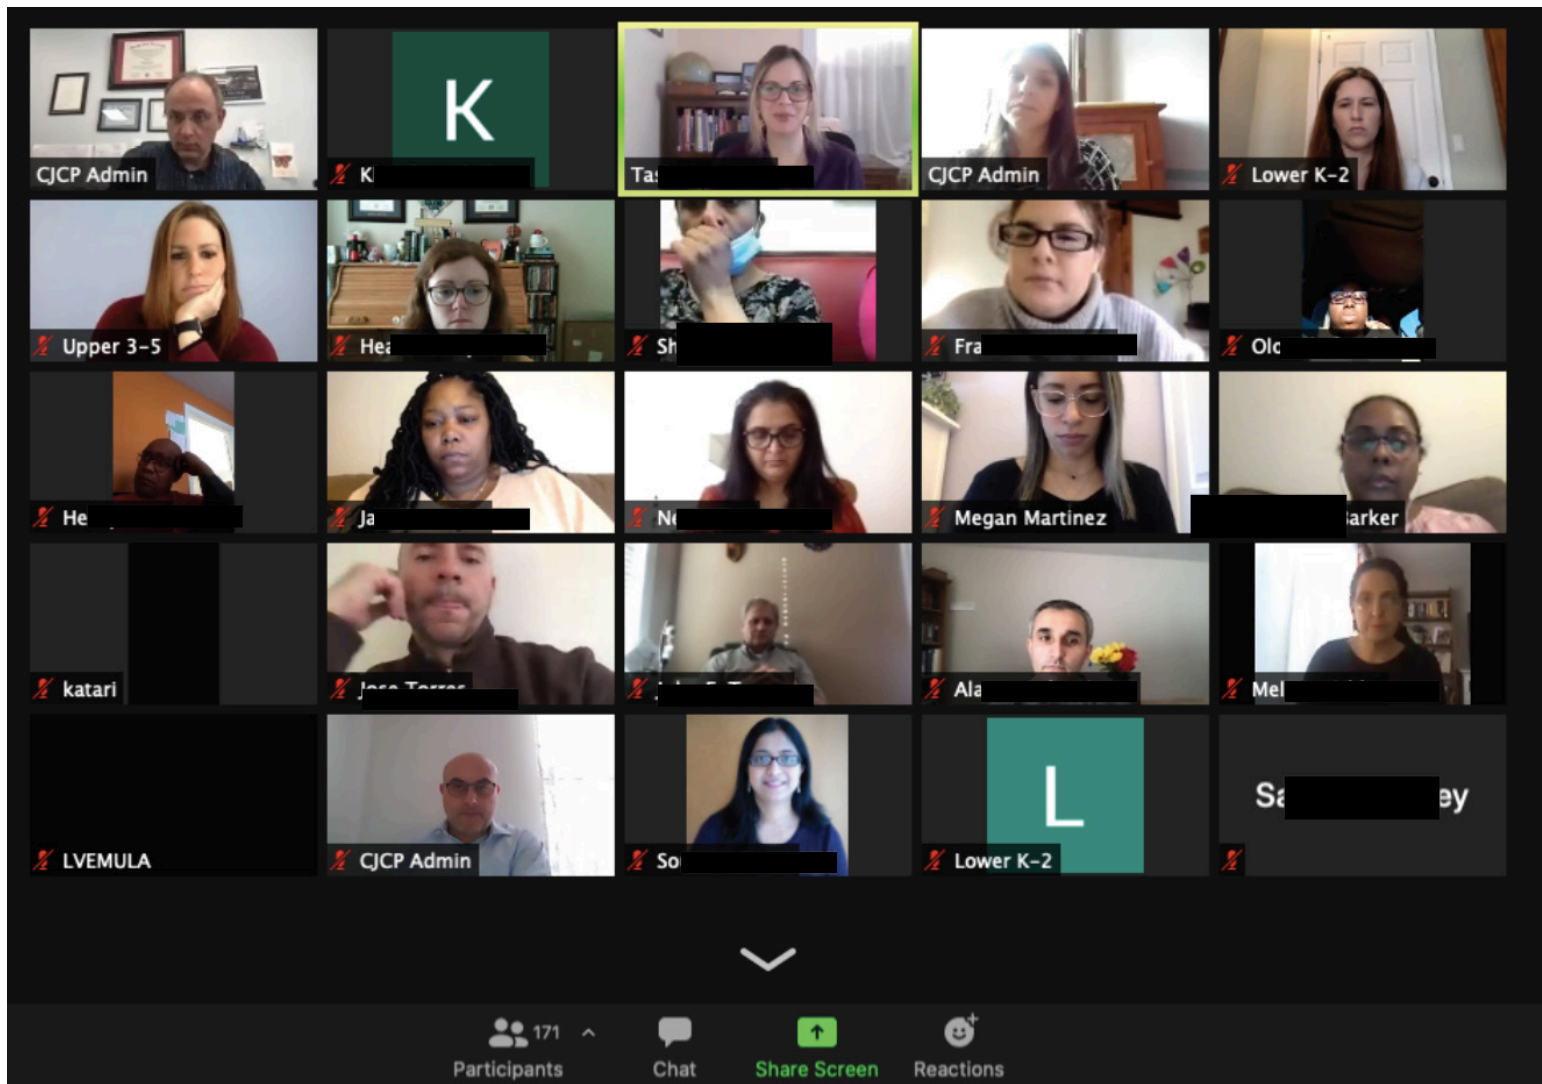

Principal's List&Honor Roll, Virtual

CJCP Alumni are engaging! Last Saturday, Vinay T. and Adam C. were our guest speakers for the current CMP (College Mentorship Program) students. Vinay & Adam study at Northeastern, they stay together, and they talked about their university and college life. Special thanks to CJCP alumni for being an excellent resource for the current CJCP students.

CJCP Virtual OPEN HOUSES

We had a great turnout at all our virtual open houses. Hundreds of parents took the time and learned more about CJCP this past month. The parents were all able to ask their questions and show their support via live sessions. We are looking forward to the lottery day results to welcome new families to our school community for the 2021-2022 school year.
